REVOLUTIONARY ELECTROLYSIS WATER TREATMENT TECHNOLOGY

Bounten transforms conventional water treatment by delivering 100% salt-free, zero-maintenance electrolytic conditioning systems. Unlike outdated ion-exchange systems that dump corrosive salt into our environment and waste thousands of litres of water during backwashing, Bounten Zoftnor operates with zero chemicals, zero salt refills, zero water wastage, and an astonishing 15-18 year lifespan.

WHY CHOOSE BOUNTEN ZOFTNOR TECHNOLOGY?

- **100% Salt-Free & Chemical-Free**
  No recurring salt bag purchases, no corrosive sodium added to water.
- **Zero Maintenance Architecture**
  Fit and forget installation with fully automated solid-state operation.
- **Zero Water Wastage**
  No backwash regeneration cycle required; saves up to 50,000 litres yearly.
- **Retains Essential Minerals**
  Alters calcium & magnesium crystallization without stripping nutrients.
- **Protects High-End Appliances**
  Saves geysers, washing machines, solar heaters & pipes from scaling.
- **PAN India Service Support**
  Dedicated technical team, genuine spare parts & certified AMC coverage.
